LANGUAGE ARTS CONNECTION

Rhyming Words Couplets are two lines that have the same end sound to create a rhyme. For example:

*When asked to complete a difficult task,
His face became an unhappy mask.*

or

*After the seal took a dive,
It gave the man a wet high five.*

Select five pairs of words from lines 25–32 above. Use these words to write by hand at least two couplets. With your teacher's permission, share your rhymes with your class.
